- Git
- Communication with multiple teams
- Team building and collaboration

---

## PROFESSIONAL EXPERIENCE

### **Mythod (Jeddah, Saudi Arabia)** (Mar 2023 - Present)

A comprehensive business solution provider with 50+ employees in Pakistan and Saudi Arabia.

#### **Senior Software Engineer - Lead**

Directed a cross-functional scrum team of 5+ frontend and backend developers, SQA engineers, and designers, achieving a 25% reduction in sprint cycle time and enhancing product release frequency by 20%.

##### **Achievements:**

- Oversaw development team in successfully delivering 2 projects in 1 year.
- Revamped customer feedback processes, converting 80% of negative reviews into positive testimonials.
- Introduced development teams with tools making development 2x faster and improved code quality.
- Implemented CI/CD for application builds and deployments using Jenkins, reducing deployment time by 60% and increasing release frequency by 40%.

##### **Tech Stack:**

- TypeScript
- NestJS
- Docker & Kubernetes
- ReactJS
- NATs
- Jenkins & BitBucket Ci/CD pipelines

### **App In Snap (Karachi, Pakistan)** (Dec 2022 – Mar 2023)

A platform builder for FinTech, Transportation and Healthcare to Retail with 250 employees in Pakistan.

#### **Senior Software Engineer – Backend Developer**

Aligned and breakdown tasks for new releases and execution of the project.

##### **Achievements:**

- Orchestrated the successful relocation of a complex project from Islamabad to Karachi, ensuring on-time delivery and achieving a 15% cost reduction through optimized logistics.

##### **Tech Stack:**

- .Net
- NestJS
- Node JS
- MSSQ

## **Ibex Global (Karachi, Pakistan)** (Sep 2021 – Dec 2022)

A leading end-to-end provider of technology-enabled Customer Lifecycle Experience (CLX) solutions.

### **Analyst Software Engineer**

Developed ETL processes and systems for 10+ clients, enhancing data accuracy by 30% and reducing data processing time by 20%.

#### **Achievements:**

- Successfully migrated 7 years old in-house .Net library to latest versions
- Managed utility services for automated database deployment, reducing deployment time by 50% and increasing operational efficiency for over 50+ projects.
- Auto-synced production server with disaster recovery servers using SyncFolder, improved server backup time from 7 days to 5 hours, achieving 99.99% uptime.
- Automated all ETL process deployment in collaboration with DevOps team using Gitlab CI/CD pipelines

#### **Tech Stack:**

- TypeScript
- .Net
- ReactJS
- GitLab Ci/CD pipelines

## **Hyperdata Computing (PVT). LTD (Karachi, Pakistan)** (SEP 2020 – SEP 2021)

A technology provider for enterprise solutions.

### **Software Engineer**

Development of microservices and intercommunication of services using Kafka and zookeeper.

#### **Achievements:**

- Developed communications service for an in-house framework.
- Successfully migrated .Net framework libraries to .Net core, impacting services to work on latest platforms.

#### **Tech Stack:**

- .Net
- Kafka & Zookeeper
- ReactJS & RxJS

---

## **EDUCATION**

### **Bahria University at Karachi**

Bachelor of Science in Computer Science, 2020

---

## **CERTIFICATIONS & ORGANIZATIONS**

### **AWS Cloud Quest: Cloud**

#### **Practitioner**

AWS Training and Certification, May 2024

### **Agile Project Management**

Google, Coursera, Dec 2023

### **Design Patterns**

University of Alberta, Coursera, Jan 2023

### **Extracting and Transforming Data in SSIS**

LinkedIn Learning, Aug 2021
