---

## PROFESSIONAL EXPERIENCE

**Contour Software, Perseus, HomeBuilders (Karachi, Pakistan)** (June 2025 - Present)

Contour Software is a global technology company delivering enterprise software solutions and services across diverse industries.

### Software Developer

#### *Responsibilities:*

- Hands-on code development for highly responsive and resilient solutions.
- Ability to manage work items in tight deadlines, and within a fixed R&D release schedule as per milestones set internally and externally
- Demonstrating persistence and visible passion for the product
- Doing whatever it takes to make the product or service useful, exciting, and successful
- Diligence and attention to detail in the team's record-keeping within corporate systems
- Proposing specifications for future enhancements and bug fixes
- Documenting all system & implementation requirements for the software developed
- Concentrated focus on product usability and the user experience
- Caring deeply about implementations, and the ongoing operational success that turns a product that customers need into a product they want for life
- Investigating customer tickets promptly where investigations were unresolvable by first-line support.

#### *Tech Stack:*

- ASP. Net MVC 5.0 or later
- ASP. Net Webforms
- Web API 2
- C# 8
- jQuery
- Power BI
- Entity Framework
- Dapper .NET
- Bootstrap

## Mythod (Jeddah, Saudi Arabia) (Mar 2023 – June 2025)

A comprehensive business solution provider with 50+ employees in Pakistan and Saudi Arabia.

### Senior Software Engineer - Lead

Directed a cross-functional scrum team of 5+ frontend and backend developers, SQA engineers, and designers, achieving a 25% reduction in sprint cycle time and enhancing product release frequency by 20%.

#### Achievements:

- Oversaw development team in successfully delivering 2 projects in 1 year.
- Revamped customer feedback processes, converting 80% of negative reviews into positive testimonials.
- Introduced development teams with tools making development 2x faster and improved code quality.
- Implemented CI/CD for application builds and deployments using Jenkins, reducing deployment time by 60% and increasing release frequency by 40%.

#### Tech Stack:

- TypeScript
- NestJS
- Docker & Kubernetes
- ReactJS
- NATs
- Jenkins & BitBucket Ci/CD pipelines

## App In Snap (Karachi, Pakistan) (Dec 2022 – Mar 2023)

A platform builder for FinTech, Transportation and Healthcare to Retail with 250 employees in Pakistan.

### Senior Software Engineer – Backend Developer

Aligned and breakdown tasks for new releases and execution of the project.

#### Achievements:

- Orchestrated the successful relocation of a complex project from Islamabad to Karachi, ensuring on-time delivery and achieving a 15% cost reduction through optimized logistics.

#### Tech Stack:

- .Net
- NestJS
- Node JS
- MSSQ

## Ibex Global (Karachi, Pakistan) (Sep 2021 – Dec 2022)

A leading end-to-end provider of technology-enabled Customer Lifecycle Experience (CLX) solutions.

### Analyst Software Engineer

Developed ETL processes and systems for 10+ clients, enhancing data accuracy by 30% and reducing data processing time by 20%.

#### Achievements:

- Successfully migrated 7 years old in-house .Net library to latest versions
- Managed utility services for automated database deployment, reducing deployment time by 50% and increasing operational efficiency for over 50+ projects.
- Auto-synced production server with disaster recovery servers using SyncFolder, improved server backup time from 7 days to 5 hours, achieving 99.99% uptime.

- Automated all ETL process deployment in collaboration with DevOps team using Gitlab CI/CD pipelines

*Tech Stack:*

- TypeScript
- .Net
- ReactJS
- GitLab Ci/CD pipelines

## Hyperdata Computing (PVT). LTD (Karachi, Pakistan) (SEP 2020 – SEP 2021)

A technology provider for enterprise solutions.

### Software Engineer

Development of microservices and intercommunication of services using Kafka and zookeeper.

*Achievements:*

- Developed communications service for an in-house framework.
- Successfully migrated .Net framework libraries to .Net core, impacting services to work on latest platforms.

*Tech Stack:*

- .Net
- Kafka & Zookeeper
- ReactJS & RxJS

---
