PROFESSIONAL SUMMARY

Senior Software Engineer with **6+ years of experience** designing and delivering **scalable, secure, and high-performance backend systems** across enterprise, fintech, and SaaS environments.

Strong expertise in **C#, ASP.NET MVC/Web API, Node.js, NestJS, microservices architecture, CI/CD pipelines, Docker, and Kubernetes**.

Proven track record of **technical leadership**, modernizing legacy systems, improving deployment efficiency, and leading cross-functional agile teams.

Experienced in **cloud-native development, DevOps automation, and distributed systems**.

Technical skills:

Programming Languages & Frameworks

- C#, .NET, ASP.NET MVC, WebForms, Web API
- Node.js, TypeScript, NestJS
- React.js, jQuery, Bootstrap

Cloud, DevOps & Architecture

- Docker, Kubernetes
- CI/CD Pipelines: Jenkins, GitLab CI/CD, Bitbucket Pipelines
- Microservices Architecture
- Message Brokers: Kafka, NATS

Databases & Data Engineering

- SQL Server
- Entity Framework, Dapper
- ETL Pipelines
- Power BI

Methodologies & Soft Skills

- Agile / Scrum
- Team Leadership & Mentoring
- Cross-functional Collaboration
- Technical Documentation & Stakeholder Communication

PROFESSIONAL EXPERIENCE

Software Developer

Contour Software / Perseus (Karachi, Pakistan)

June 2025 - Present

- Develop and maintain **highly scalable and resilient enterprise applications** using ASP.NET MVC, Web API, and SQL Server.
- Implement backend features with a strong focus on **performance, usability, and maintainability**.
- Manage development tasks within **tight R&D release cycles** and milestone-driven delivery schedules.
- Investigate and resolve complex production issues escalated from first-line support.
- Author detailed **technical documentation and implementation specifications** for new features and enhancements.

Tech Stack: ASP.NET MVC, C#, Web API, SQL Server, Entity Framework, Dapper, jQuery, Bootstrap, Power BI

Senior Software Engineer (Lead)

Mythod (Jeddah, Saudi Arabia)

March 2023 – June 2025

- Led a **cross-functional scrum team of 5+ developers, QA engineers, and designers** across Pakistan and Saudi Arabia.
- Reduced sprint cycle time by **25%** and increased release frequency by **20%** through agile process optimization.
- Successfully delivered **2 large-scale production systems within one year**.
- Designed and implemented **CI/CD pipelines using Jenkins**, reducing deployment time by **60%** and increasing release frequency by **40%**.
- Introduced engineering tools and best practices that **doubled development productivity** and improved code quality.
- Improved customer satisfaction by converting **80% of negative feedback into positive testimonials**.

Tech Stack: TypeScript, NestJS, Docker & Kubernetes, ReactJS, NATs, Jenkins and BitBucket Ci/CD Build Automation

Senior Software Engineer

App In Snap (Karachi, Pakistan)

Dec 2022 – Mar 2023

- Planned and executed release tasks, ensuring timely delivery of new features.
- Led the successful **relocation of a complex production system**, reducing operational costs by **15%** while maintaining delivery timelines.

Tech Stack: .Net, NodeJS, NestJS, MSSQL

Analyst Software Engineer

Ibex Global (Karachi, Pakistan)

Sep 2021 – Dec 2022

- Developed **ETL pipelines for 10+ enterprise clients**, improving data accuracy by **30%** and reducing processing time by **20%**.
- Migrated a **7-year-old .NET library** to modern versions, improving stability and performance.
- Automated database deployments, reducing deployment time by **50%** across **50+ projects**.

- Implemented production-to-DR server synchronization, improving backup time from **7 days to 5 hours** and achieving **99.99% uptime**.
- Collaborated with DevOps teams to automate ETL deployments using **GitLab CI/CD**.

Tech Stack: TypeScript, ReactJS, .Net, CI/CD Automation

Software Engineer

Hyperdata Computing (PVT). LTD (Karachi, Pakistan)

Sep 2020 – Sep 2021

- Developed **microservices with Kafka and Zookeeper** for inter-service communication.
- Migrated legacy .NET framework libraries to **.NET Core**, enabling cross-platform compatibility.
- Built communication services for an in-house enterprise framework.

Tech Stack: Kafka & Zookeeper (Inter service message streaming), React JS , .Net, RxJS

EDUCATION

FAST National University, Karachi

Master of Science in Data Science, 2026

Bahria University, Karachi

Bachelor of Science in Computer Science, 2020

CERTIFICATIONS & ORGANIZATIONS

- **AWS Cloud Quest: Cloud Practitioner** (AWS Training and Certification, May 2024)
- **Agile Project Management** (Google, Coursera, Dec 2023)
- **Design Patterns** (University of Alberta, Coursera, Jan 2023)
- **Analysing and Visualising** data with Excel (Quick Start, July 2022)
- **Introduction to Data Science** (Quick Start, July 2022)
- **Extracting and Transforming Data in SSIS** (LinkedIn Learning, Aug 2021)

Availability & Mobility:

- Open for relocation.
